## EDUCATION

- |   |            |
|---|------------|
| • <b>Annamacharya Institute Of Information Technology &amp; sciences,Tirupati</b> | 2025       |
| <i>B.Tech in Electronics and Communication Engineering</i>                        | CGPA: 7.92 |
| • <b>Vyshnavi Junior College</b>  | 2021       |
| <i>Board of Intermediate Education, Telangana</i>                                 | CGPA: 7.84 |
| • <b>Sai Chaitanya high School</b>  | 2019       |
| <i>Board of Secondary Education, Andhra Pradesh</i>                               | CGPA: 9.00 |

## EXPERIENCE

- |  |                    |
|--|--------------------|
| • <b>Slashmark(Virtual Internship)</b>   | May 2024-July 2024 |
| <i>Full Stack Developer</i>  |                    |
| – Developed full-stack web applications using HTML,CSS,Javascript,React.js and Node.js, focusing on creating responsive and user-centric web interfaces. |                    |
| – Integrated RESTful APIs and backend services to support dynamic web interfaces.  |                    |
| • <b>Salesforce(Virtual Internship)</b>  | Nov 2023-Dec 2023  |
| <i>Salesforce Developer</i>  |                    |
| – Developed and automated complex business processes using Salesforce Flows.   |                    |
| – Built Lightning Web Components to deliver custom functionality to end-users.   |                    |

## PERSONAL PROJECTS

- **IoT-Based Ultrasonic Distance Measurement Sensor**
  - Developed an IoT-based system using ultrasonic sensors and Arduino to measure distances, monitor levels, and detect objects remotely, focusing on industrial safety and security systems.
  - Tools & technologies used: Arduino UNO, ESP8266 (Wi-Fi Module), Ultrasonic Sensor (HC-SR04).
- **Student Registration Form**
  - Developed a student registration form to efficiently collect and manage data. Designed a user-friendly front-end and implemented secure back-end data storage and validation.
  - Tools & technologies used: HTML, CSS, JavaScript, MySQL, React.js,Node.js.

## TECHNICAL SKILLS and INTERESTS

**Languages:** Python,Java,HTML,CSS,Javascript,SQL

**Developer Tools:**Github,VS Code,Arduino IDE,Postman,MS Office

**Frameworks:**React.js,Node.js,Bootstrap

**Cloud/Databases:**AWS,MySQL

**Soft Skills:**Leadership,Teamwork,Problem-Solving,Communication,Self-motivation

**Coursework:**Cloud Computing(NPTEL,AWS,IBM),Web Development(IBM),IoT(AICTE Internship)

**Areas of Interest:**Full stack development,Cloud Computing,Data Analytics,Iot

## ACHIEVEMENTS

- **Microsoft Certified: Azure Fundamentals** – January 2024
- **Salesforce Developer Virtual Internship** – November-December 2023
- **NPTEL Cloud Computing** – July-October 2023
- **IBM Cloud Computing Introduction** – March 2024
- **IBM Web Development** – March 2024
- **Google Cybersecurity Certificate** – March 2024
- **JPMorgan Chase Software Engineering Internship** – June 2024
- **AICTE Full Stack Development Internship** – May-July 2024
- **AWS Cloud Computing Assessment** – September 2024
- **Python for Data Science Certification** – Completed August 2023
